Subject: Packages from Friday

Jenny,

You got four packages in. One was a 4Kg metal can of crude MCHM. I took out two 40mL aliquots and stuck them in my fridge and the can is in the hood in my lab cause it has a strong smell to it.

The other three packages I put in your standards fridge on the bottom shelf. Eric signed for the one in the plastic bag and I signed for the two boxes. I did not receive any packing slips and I don't know if Eric did either.
